

A-level Physics summer task

Deadline for completion: 1st September 2018

1. Follow the link that follows and set up an account with Isaac using your school email:
<https://isaacphysics.org/>
2. Once your account is setup access the following link in order to be entered into the A-level physics class: <https://isaacphysics.org/account?authToken=6PYPC6>. If this link does not work, you can manually enter the following code into the teacher connections tab in account settings: 6PYPC6
3. Complete all of the assignments you will find under the assignments tab. This will cover some specific A-level skills and also some more general GCSE topics to consolidate your learning over the last couple of years. The information you need to answer each assignment should be included on the assignment board but you may need to supplement this with your own research. If you are unsure of how to format your answers or how to answer a question please refer to the following link to help you with the formatting.:
https://isaacphysics.org/solving_problems
4. The deadline is 1st September so please make sure you complete these tasks in a timely manner.

If you have any issues, please contact myself or Mr Burgess promptly via email.

Have a good summer,

J Oakley
